SUMMARY

Full Stack Developer with 4+ years of experience building web platforms with React.js, Vue.js, Node.js and Python on AWS. Currently building AI integrations at Atiom, including an MCP server that lets Claude edit training content directly in the product.

WORK EXPERIENCE

Atiom (Thailand) Co., Ltd. | Full Stack Developer · Full-time **Jun 2025 - Present**

- Built an MCP (Model Context Protocol) server from scratch with TypeScript and Express on AWS Fargate, so AI clients like Claude can create and edit Modules, Quizzes, QA Pools and Surveys directly in the Hub content editor.
- Designed a PAT-to-JWT token exchange and an SSE-based session relay with the backend team.
- Leading the architecture design for an in-Hub AI assistant that handles time-consuming admin work, such as tagging content and assigning roles.
- Ran an AI-assisted content-tagging backfill for client content, with scripts to assign tags in bulk.
- Developed features for the Admin Portal using React.js, and built an internal bulk action tool and Python scripts for Customer Support requests.
- Wrote advanced MySQL queries for client data exports and reporting, and resolved user-reported issues with the Customer Support team.

VGI Digital Lab (BSS Holdings Co., Ltd.) | Full Stack Developer · Full-time **Nov 2023 - Apr 2025 · 1 year 6 months**

- Developed customer data platform (CDP) as a web-based application using React.js and C# AWS Serverless Application Model (SAM).
- Developed and maintained the VGI One Platform, a centralized media and customer data management tool used by Central Group.
- Built responsive UI components with React.js, streamlining booking and admin workflows.
- Developed scalable backend services using Node.js and Express, enabling key functions like media booking, user roles, and CMS features.
- Integrated with the company's central digital media system (CDMS) via APIs for real-time inventory updates.
- Worked in Agile sprints with QA, PMs, DE, DevOps and others, increasing delivery velocity.

ZOindy Limited (Thai Group Holdings PCL) | Software Developer · Contract **Jul 2024 - Dec 2024 · 6 months**

- Built a labor insurance application for both client and admin management services.
- Developed CMS components and dashboard using Vue.js and Nuxt.js.
- Maintained CMS system with legacy services and internal APIs using AngularJS.

AppMan Co., Ltd. | Software Engineer · Full-time | Sep 2022 - Oct 2023 · 1 year 2 months

- Designed and maintained RPA tools and backend services for life insurance operations.
- Built microservices with Node.js, Python via AWS Lambda.
- Created document generation project using Python for ML OCR services.
- Initialized and maintained observer server with Node.js based on message queue events.
- Integrated OCR modules to auto-extract data from scanned forms, reducing manual processing using React.js and Django.
- Developed billing SaaS application to integrate with other internal projects using Express.js.

Artisan Digital Asia Co., Ltd.

Software Developer · Full-time | May 2022 - Aug 2022 · 4 months

- Developed job portal and HR systems using Vue.js, Node.js, and MySQL.
- Focused on reusable UI design with Bootstrap and Tailwind CSS.
- Developed HR management systems using Kotlin Spring Boot.

Software Developer · Full-time · Internship | Jan 2021 - Apr 2022 · 1 year 4 months

- Completed a 16-month internship delivering multiple projects.
- Built e-learning platforms and CMS backoffice using Next.js, Strapi and PostgreSQL.
- Maintained job portal and HR systems using Vue.js, Node.js, and MySQL.
- Participated in development process of multiple mini-projects.

FREELANCE EXPERIENCE

- **Mobile Membership App:** Developed cross-platform UI using React Native, optimizing mobile performance.
- **Property Web App:** Implemented property listing features with Vue.js and Bootstrap; maintained legacy PHP codebase.
- **Form Admin Platform:** Created administration form UIs using Vue.js and integrated with RESTful APIs for backend operations.

TECHNICAL SKILLS

- **Languages:** JavaScript / TypeScript, Python, C#, Kotlin, PHP, Go (learning)
- **Frontend:** React.js, Vue.js, Next.js, Nuxt.js, AngularJS, React Native, Tailwind, Material UI, SASS, Bootstrap 5
- **Backend & Database:** Node.js, Express.js, Django, Spring Boot, Strapi, Deno, RabbitMQ, Kong Gateway, MySQL, PostgreSQL, Redis, Directus
- **AI & Integration:** MCP (Model Context Protocol), Claude / LLM APIs, REST APIs
- **Cloud & Tools:** AWS (Lambda, Fargate, SAM), Docker, Git, Playwright

---

EDUCATION

Chiang Mai University | Aug 2019 - Mar 2022
Bachelor of Science, College of Arts, Media and Technology, Digital Industry Integration
• 3.74 GPA (first-class honors)
• 3 years graduation

SOFT SKILLS

- Strong teamwork in Agile/Scrum environments
- Ownership-driven and results-focused
- Analytical problem solver with proactive attitude
- Clear communicator with tech and non-tech stakeholders
